Referrals to the UCI Campus Social Worker can be made by UCI faculty or staff only. Generally, students may not self-refer.

**An appointment is required for in-person meetings.**

If you are a faculty or staff member and think a student may benefit from CSW services, please contact the CSW for referral or consultation information.

CSW services are designed to complement and support current UCI student services.
The UCI Campus Social Worker (CSW) is part of the UCI Student Affairs Wellness, Health & Counseling Services team.

The Campus Social Worker:
- Provides private support for individual students during a medical, physical, familial and/or emotional crisis.
- Offers assessment and recommendations to faculty and staff on how to handle a sensitive student situation.
- Develops an action plan to coordinate and monitor the delivery of services to help individuals meet their goals.
- Mobilizes necessary campus and community resources to maximize the person’s physical, social and/or emotional well-being.
- Helps students navigate their relationships and responsibilities with UCI academic and administrative departments.
- Collaborates with the campus Consultation Team when it is in the best interest of the individual and/or campus community.

Consultation services are available to the entire UCI community. No identifying information about a student is needed for a consultation.

The CSW helps determine the scope and level of services needed. The range of matters may include but are not limited to:
- Food, shelter or transportation resources
- Emergency financial support
- Counseling services outside of UCI
- Coordination of resources & services upon student death

The CSW cannot discuss the details of a student’s situation with others, including the referring party, without the consent of the student. In an event there is an urgent health or safety concern, (such as if an individual expresses being a danger to self or others, is gravely disabled, or if there is suspected child or elder abuse), the CSW is mandated by the law and professional ethics to disclose the information to appropriate professional entities, in order to support the individual.
